Subject: Dave Yeomans & the EDC guys

Murray,

Just a quick note to express my thanks (and Ken Sleeman's) for the assistance and perseverance of the EDC crew down at Supply SA Camden Park, especially Dave Yeomans and his offsider (whose name I unfortunately can't remember), who have both put up with a lot of changes, redirections and hassle throughout the cabling activities in the warehouse. They've done a brilliant job so far, and have always been willing to help in whatever way they can.

Keep hold of them , they're a credit to both you and EDC as a whole.

Cheers ... Kim
